

DREAMCOAT

PROFESSIONAL PAINTING CONTRACTORS

More than a professional paint job

Dreamcoat is endorsed by all the premium paint brands and are recommended applicators of their products.

We offer the most complete painting services, from new projects to waterproofing and epoxy floor coating.

ABOUT US

Dreamcoat is a multi-disciplined professional painting and renovating contractor, operating in KwaZulu-Natal. We are an approved applicator of all the major brands. We only use the top of the range materials which are covered by a manufacturer's quality guarantee of between 5 years (minimum) and 7 years. All our workmanship comes with a 3 year warranty. We have a policy of only employing experienced painters who have to pass a stringent trial period before employment.

We have:

- More than 50 years experience in the paint / paint application industry.
- A well trained and highly disciplined work force, well led by experienced & reliable supervisors.
- A philosophy of generating customer confidence and loyalty by providing excellence in delivery and quality of products.

OUR SERVICES

We specialise in new projects and the painting of new buildings and complexes. We have the necessary skills to deliver a top quality product within the planned time-frame at competitive and affordable rates. We are committed and dedicated and take pride in our meticulous approach to getting superior painting results. Painting is a key component in any new building project as it provides the final finished look. Dreamcoat is capable of delivering the highest quality at competitive prices.

RENOVATION & RESTORATION

We pride ourselves on our attention to detail and the ability to deliver good old fashioned customer service and the highest quality finish with each and every painting task. Your property is a valuable asset and quality painting and decorating is one of the best ways to protect that investment.

Dreamcoat has a team of plasterers and specialists in spalling repairs. We put our collective experience to use in evaluating the requirement and the correct and most affordable way to return the building concerned to a pristine condition. We have a number of specialists on call to provide such components as window replacements, tiling, ceiling repairs and installations etc. which enables us to deliver a complete renovation or restoration package.

REDECORATION

This is our speciality. With our knowledge of paint technology and 15 years experience in painting and most specifically redecoration we are well qualified to appraise the existing condition of the various surfaces to be painted. We regard preparation as the key element in attaining a high quality, durable end product. We only use top quality paint products.

WATERPROOFING

At Dreamcoat, we believe that preventative exterior maintenance is vital to the sustainability of building systems. Virtually all types of waterproofing including torch-on are undertaken.

INDUSTRIAL APPLICATIONS

We have considerable experience in the anti-corrosive coatings field. Corrosion is particularly severe in coastal areas. Dreamcoat works closely with manufacturers of heavy-duty coatings, and has the capability to deliver most applications.

EPOXY FLOOR COATING

Dreamcoat has completed a number of very successful applications of epoxy on floors. The purpose to which the coating is to be put is provided by the client. Depending on the requirement, e.g. foot traffic or heavy traffic involving laden forklifts, a coating system is designed. Coating can vary from a 6mm epoxy screed + a solvent-free high build top coat to a single high build coat over sealer at a thickness of 500 microns.

YOUR PAINTING PROJECTS HAVE NEVER BEEN IN MORE CAPABLE HANDS.
